

بانک ایده برنامه ثبت ملی سندرم شوگرن اولیه (این مستند در ۲ صفحه است.)

جهت پایان نامه دانشجویان سال اول دوره کارآموزی بالینی

1. Comorbidities in Primary Sjogren Syndrome (pSS) Using Data Bank of Iran Primary Sjogren Syndrome Registry Pilot Phase (GUIRAPSS*)
2. Diabetic Mellitus in pSS vs General Population Using GUIRAPSS and of Persian Cohort Data Bank**
3. Hyperlipidemia in pSS vs General Population Using GUIRAPSS and of Persian Cohort Data Bank
4. Hypertension in pSS vs General Population Using GUIRAPSS and of Persian Cohort Data Bank
5. Hypothyroidism in pSS vs General Population Using GUIRAPSS and of Persian Cohort Data Bank
6. Fatty Liver in pSS vs General Population Using GUIRAPSS and of Persian Cohort Data Bank
7. pSS Cases with RF⁺ vs RF⁻ Using GUIRAPSS Data Bank
8. Bone Mineral Density (BMD) in pSS Using GUIRAPSS Data Bank ***
9. BMD in pSS vs General Population Using GUIRAPSS Data Bank***

*Pilot phase of Iran primary Sjogren syndrome including 74 cases that implemented in Guilan province of Iran by Guilan rheumatology research center and named GUIRAPSS.

**Persian Cohort is a national cohort that its Guilan branch are implementing by gastrointestinal and live disease research center of Guilan university of medical sciences.

*** Need more sample size due to not provided documents about bone mineral densitometry by patients.

بانک ایده برنامه ثبت ملی سندرم شوگرن اولیه (این مستند در ۲ صفحه است.)

جهت پایان نامه دانشجویان سال اول دوره کارآموزی بالینی

10. Early pSS vs Late pSS Using GUIRAPSS Data Bank
11. Biological Involvement in pSS Using GUIRAPSS Data Bank
12. Hematologic Findings in pSS Using GUIRAPSS Data Bank
13. pSS Cases with Positive Familial History of Malignancy vs Ones without it Using GUIRAPSS Data Bank
14. pSS Cases with and without Fatigue Using GUIRAPSS Data Bank
15. pSS with and without Complete or Near Complete Tooth Loss Using GUIRAPSS Data Bank
16. pSS Cases with and without Patient Acceptable Symptoms (PASS) Using GUIRAPSS Data Bank
17. Highly Active pSS Cases Based on Eular Sjogren Syndrome Disease Activity Index (ESSDAI) vs Ones Based on Sjogren Syndrome Disease Activity Index (SSDAI) Using GUIRAPSS Data Bank
18. pSS Cases in Different Geographic Locations in Guilan Provinces Using GUIRAPSS Data Bank

*Pilot phase of Iran primary Sjogren syndrome including 74 cases that implemented in Guilan province of Iran by Guilan rheumatology research center and named GUIRAPSS.

**Persian Cohort is a national cohort that its Guilan branch are implementing by gastrointestinal and live disease research center of Guilan university of medical sciences.

*** Need more sample size due to not provided documents about bone mineral densitometry by patients.
